Grants, Loans, Technical Assistance

- Housing—single and multi-family
- Community facilities—hospitals, schools, libraries, public safety (police, fire, etc.), community centers and more
- Business—loans, grants and technical assistance to help businesses in rural communities
- Utilities—electric, telecommunications, water, wastewater, broadband, renewables
Energy Programs

- Designed to help access renewable energy systems and use energy more efficiently
- Provide funding for the development and commercialization of renewable energy sources
Rural Energy for America Program | REAP

• Provides loan guarantees and grants to agricultural producers and rural small businesses to purchase and install renewable energy systems and make energy-efficiency improvements.

• Eligible applicants for feasibility studies include rural small businesses and ag producers
Direct & Guaranteed Electric Loan Program

• Provides financing to eligible nonprofit utility organizations, such as electric co-ops and public utility districts, to develop renewable energy, hydroelectric, biomass, photovoltaic, and wind-powered renewable energy projects development by Electric Program loan borrowers.
High Energy Cost Grants Program

• Financing to energy generation, transmission and distribution facilities that serve communities with average home energy costs exceeding 275% of the national average

• Grant funds may be used for on- and off-grid renewable energy projects
